Task 1

Add a CHECK constraint to passenger table to provide that passengers must be at least 10 years old.

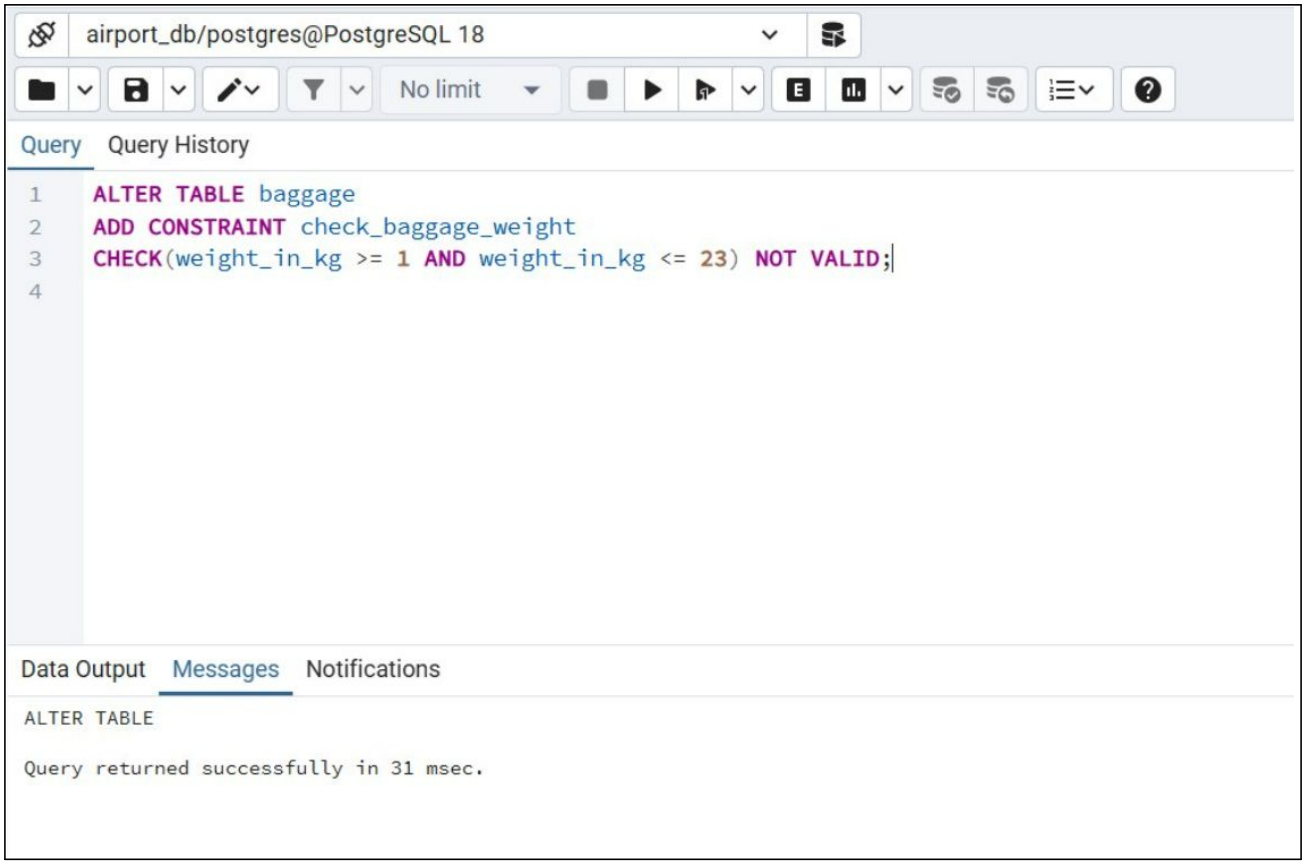

Task 2

Add a CHECK constraint to accept values in booking price not more than 50000tg and less than 0tg.

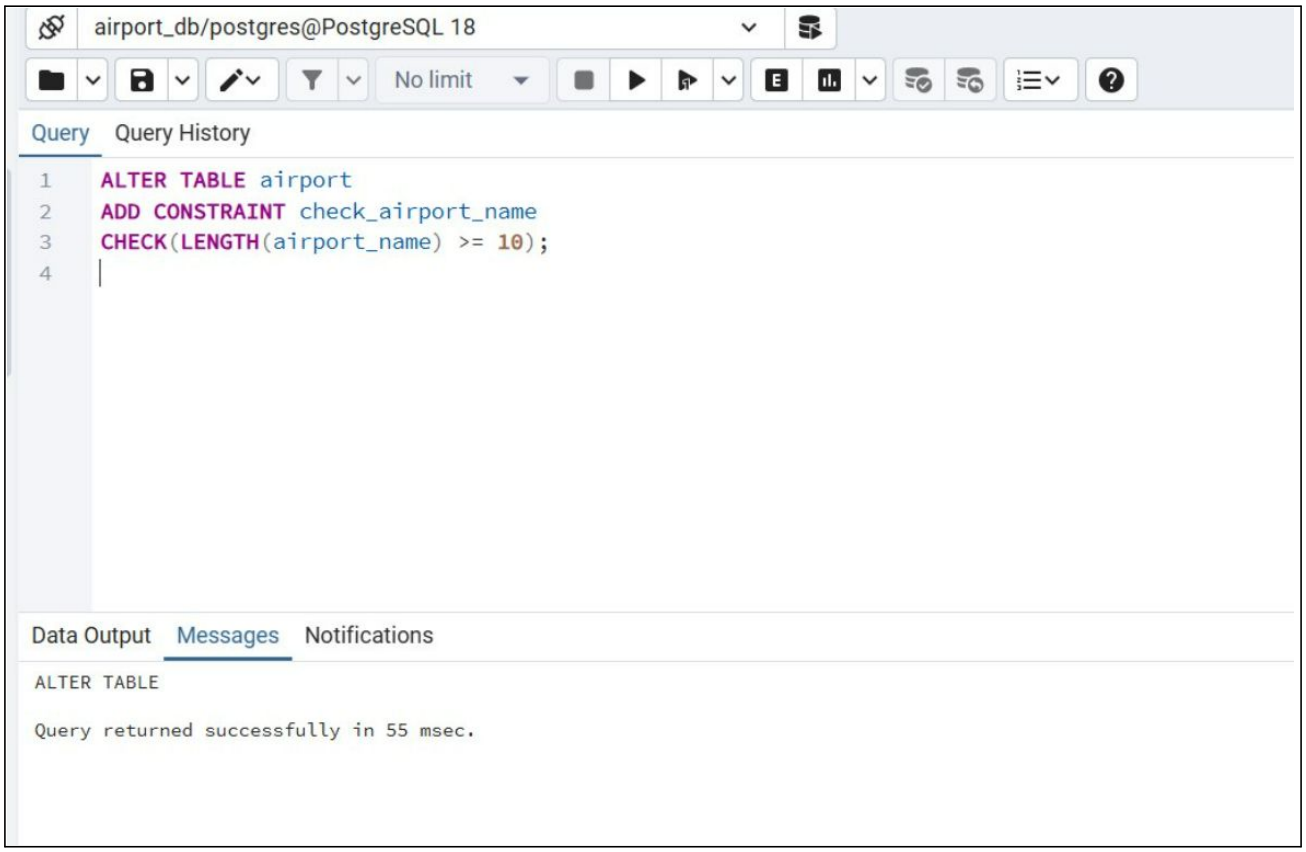

Task 3

Add a CHECK constraint to accept the luggage weight between 1 and 23 kg.

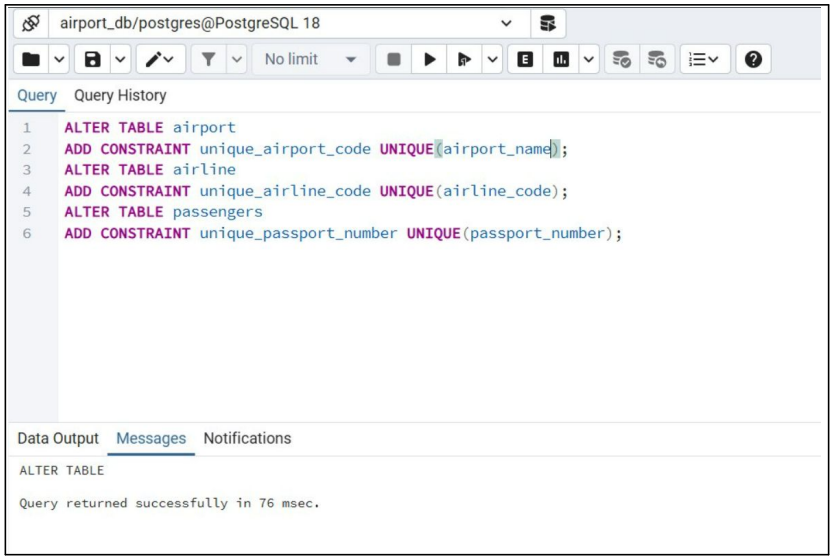

Task 4

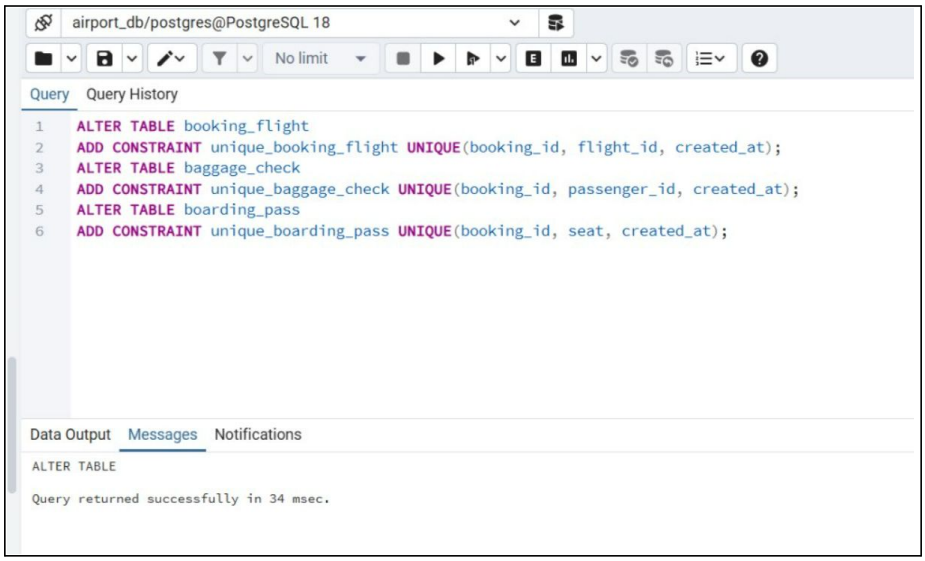

Add a CHECK constraint to ensure that all values in airport_name must have at least 10 characters.

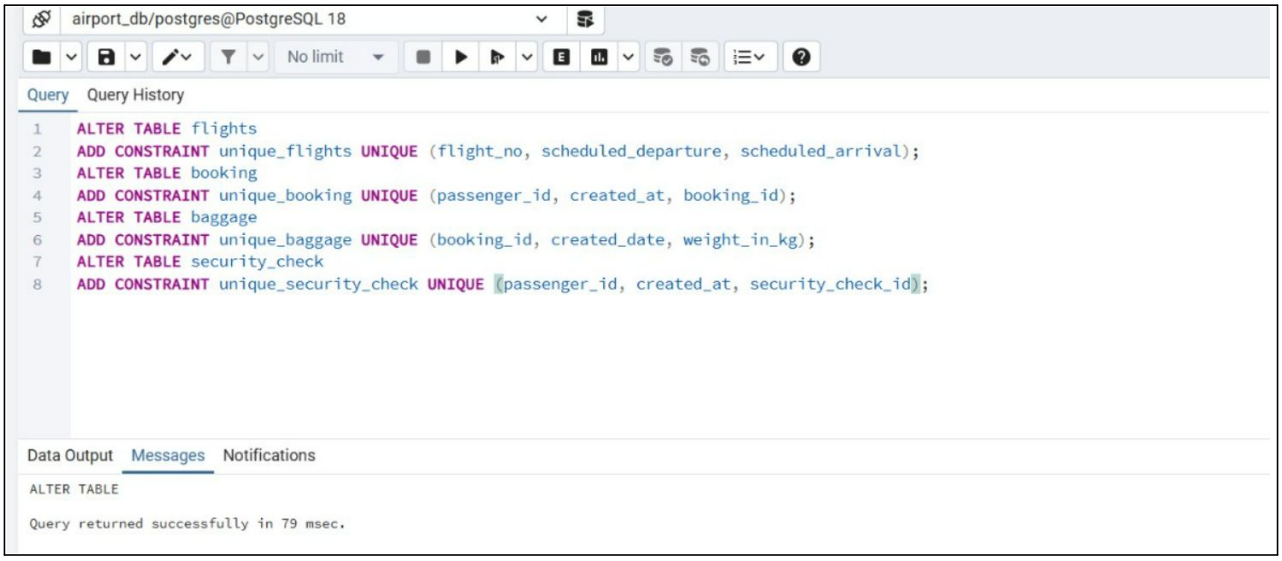

Task 5

Add UNIQUE constraint to some columns in each table in database.

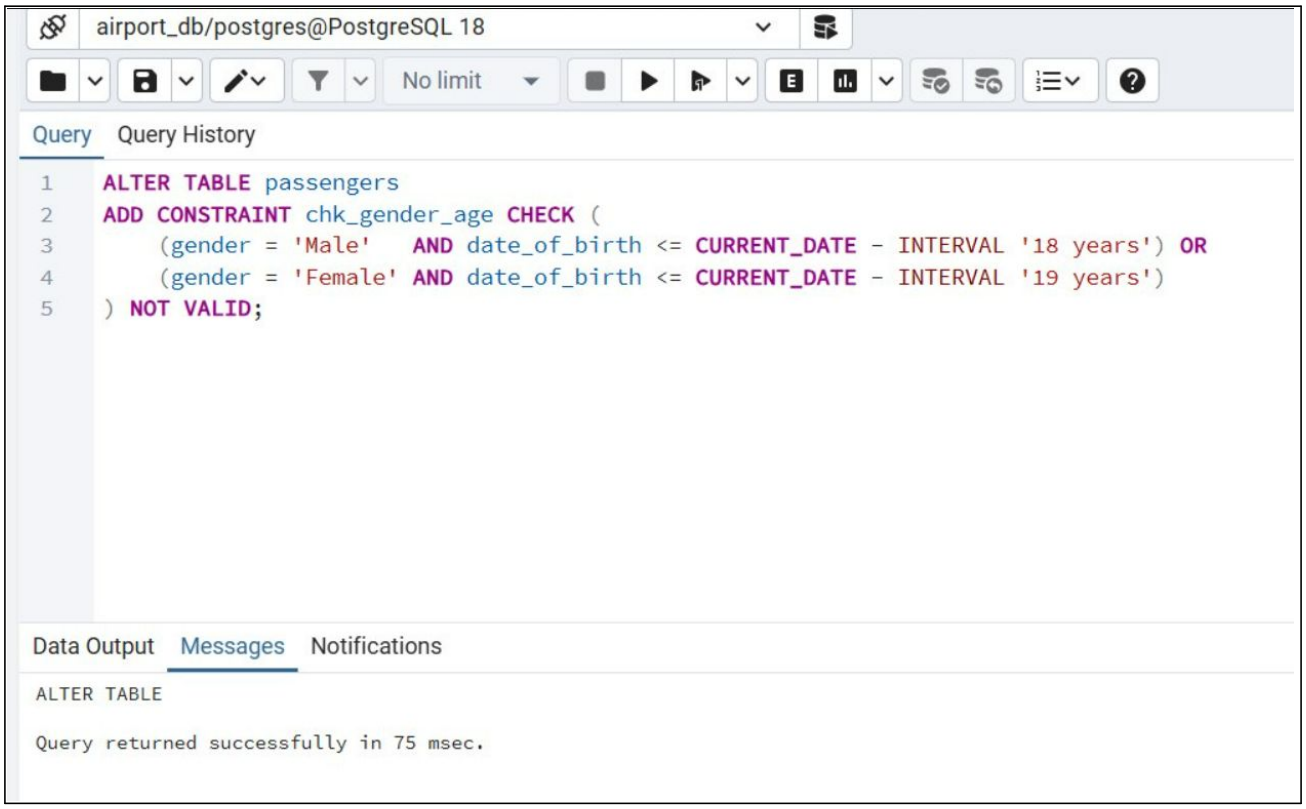

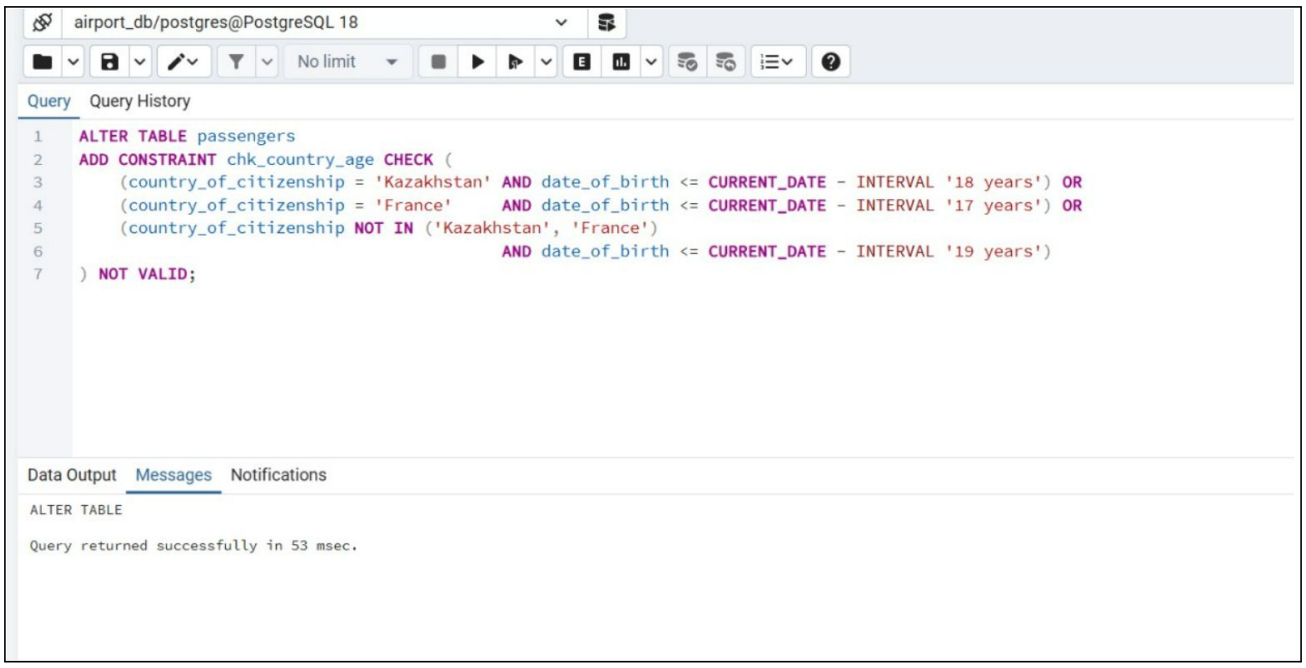

Task 6

Add a CHECK constraint to ensure that male passengers must be at least 18 years old and female passengers must be 19 years old.

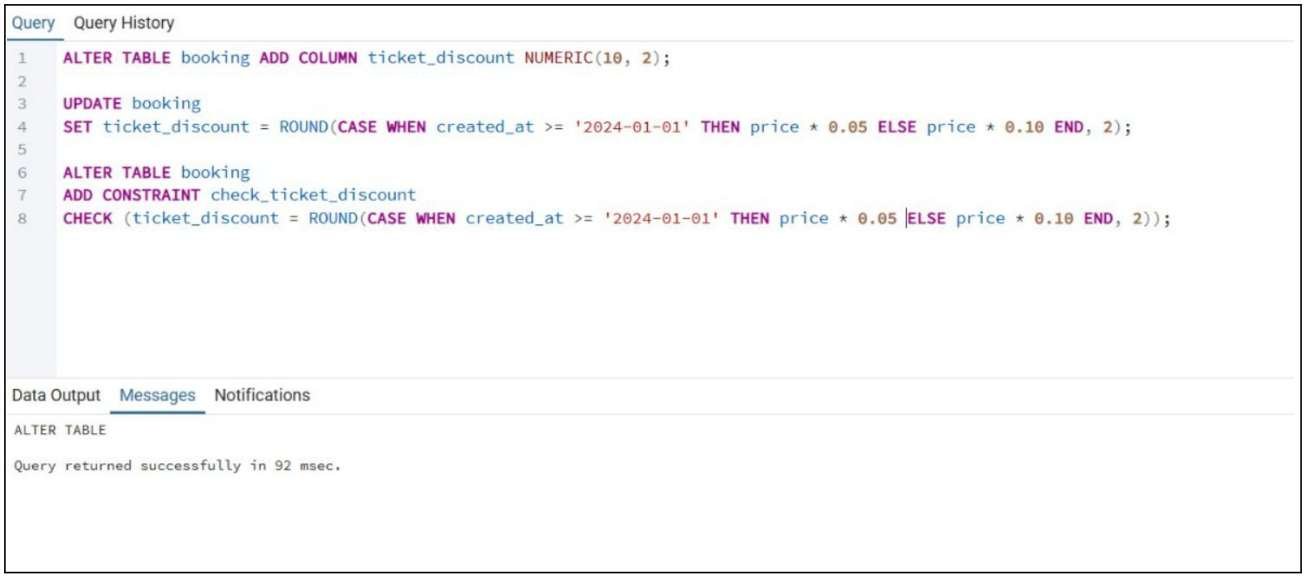

Task 7

Add a CHECK constraint to add rule as follow (use column country_of_citizenship): passengers from Kazakhstan must be at least 18 years old; passengers from France must be at least 17 years old; passengers from other countries must be at least 19 years old.

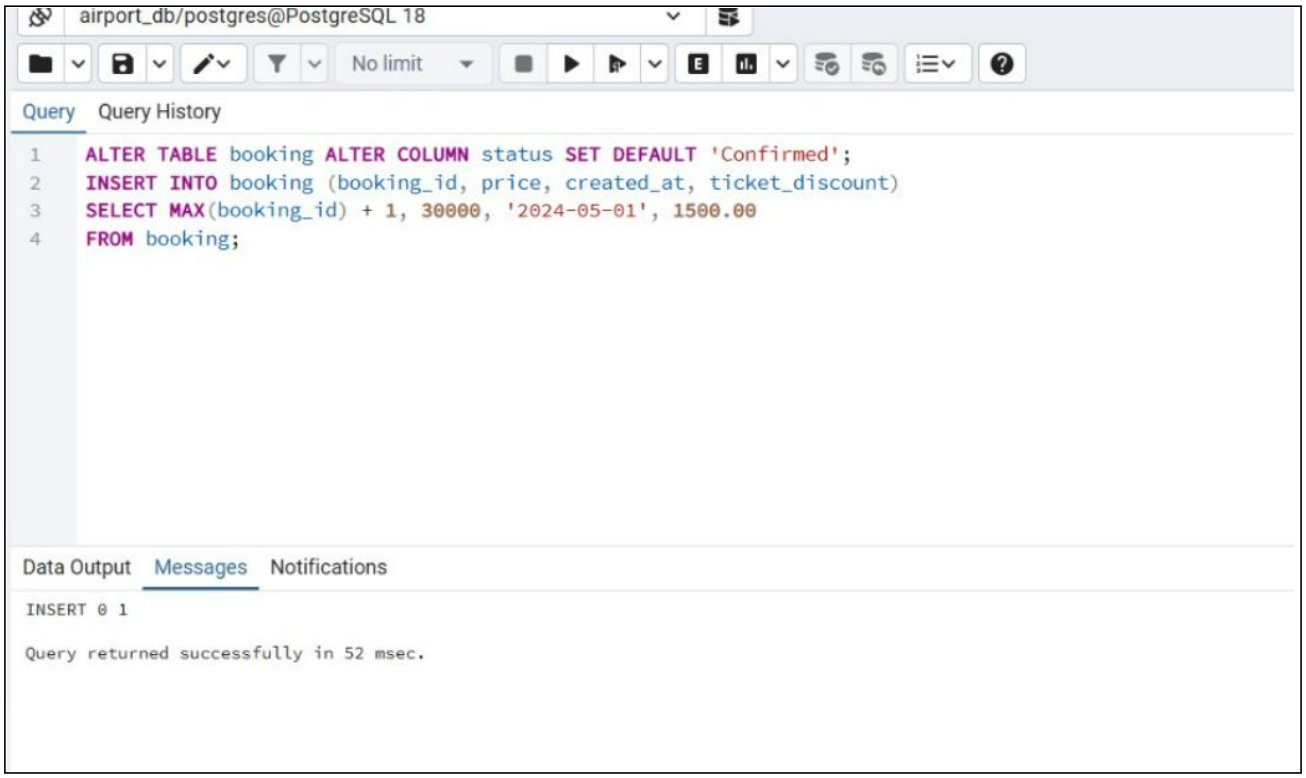

Task 8

Add a ticket_discount column to table booking and a CHECK constraint to apply some discount based on ticket price and created time: the constraint applies a 5% discount for tickets created after 2024-01-01, and 10% discount for tickets created before 2024-01-01.

Task 9

Modify the booking table so that the booking status column has a default value of 'Confirmed'. Then insert a new booking without specifying booking status.

Task 10

Modify the appropriate date column in the database so that when a new record is inserted, the date is automatically set to the current date.
